

A low-angle, upward-looking photograph of a modern building's exterior. The building features a grid of large, rectangular glass windows set in light-colored frames. The sky is a pale blue with soft, white clouds. In the upper right corner, a portion of another building's white, ribbed facade is visible. A small, pinkish-purple object, possibly a pen or a tool, is visible on the right side of the frame. The overall composition is dynamic, with strong geometric lines from the building's structure.

Mobile room solutions

ELA Container is a specialist in mobile room solutions built from containers. From planning and delivery to assembly and removal, ELA provides expert, end-to-end service – with the reliable quality hallmark 'Made in Germany'.

For any application
and industry –
to rent or buy

The flexibility of the ELA system guarantees its universal applicability. ELA containers are compatible with any application and are fully customisable. Whether for construction or industry, as a nursery, office complex, bank, treatment room, museum shop or a completely bespoke project ELA has a solution for every set of requirements.

Healthcare

The ELA container range also provides the basis for temporary medical practices, hospitals and treatment rooms, with accommodation, sanitary, office and first-aid containers. The ELA room solutions for healthcare have a modern and friendly atmosphere and are easy to clean and maintain.

Logistics and ports

ELA Container supplies office containers, gatekeeper containers, storage containers, terminals and ticket counters. The flexible container systems for ports and logistics areas are ideal for temporary use, for example for seasonal operations.

Retail and catering

From the large shop floors of dis-counters to small city-centre boutiques: ELA Container offers mobile retail spaces in a variety of sizes. The ELA room solutions for wholesale and retail are ready for immediate use and can be branded and painted in brand-specific colours on request.

Trade fairs and events

ELA offers the complete package for successful and professional trade fair stands with exhibition containers that have been specially designed for trade fairs. With multiple levels, a roof terrace, lounge and custom branding, the container systems are sure to attract attention to your exhibit.

Construction

With their sturdy and robust design, leased containers from ELA are perfect for construction sites. Be it an office container, accommodation container, sanitary container, workshop container or storage container, ELA has ideal mobile room for any site.

Local authorities and cities

ELA Container supports local authorities and cities with flexible room solutions that can be supplied with equipment on request and are ready for immediate use for any purpose, from containers for schools and nurseries, through to information stands, public toilets, leisure facilities and exhibition spaces.

Industry

Whether for conversions, excess capacity or a large contract, flexible ELA container rooms for industry keep your logistics, administration and production running smoothly. They offer the highest technical standards and equipment details that are tailored specifically to the sector.

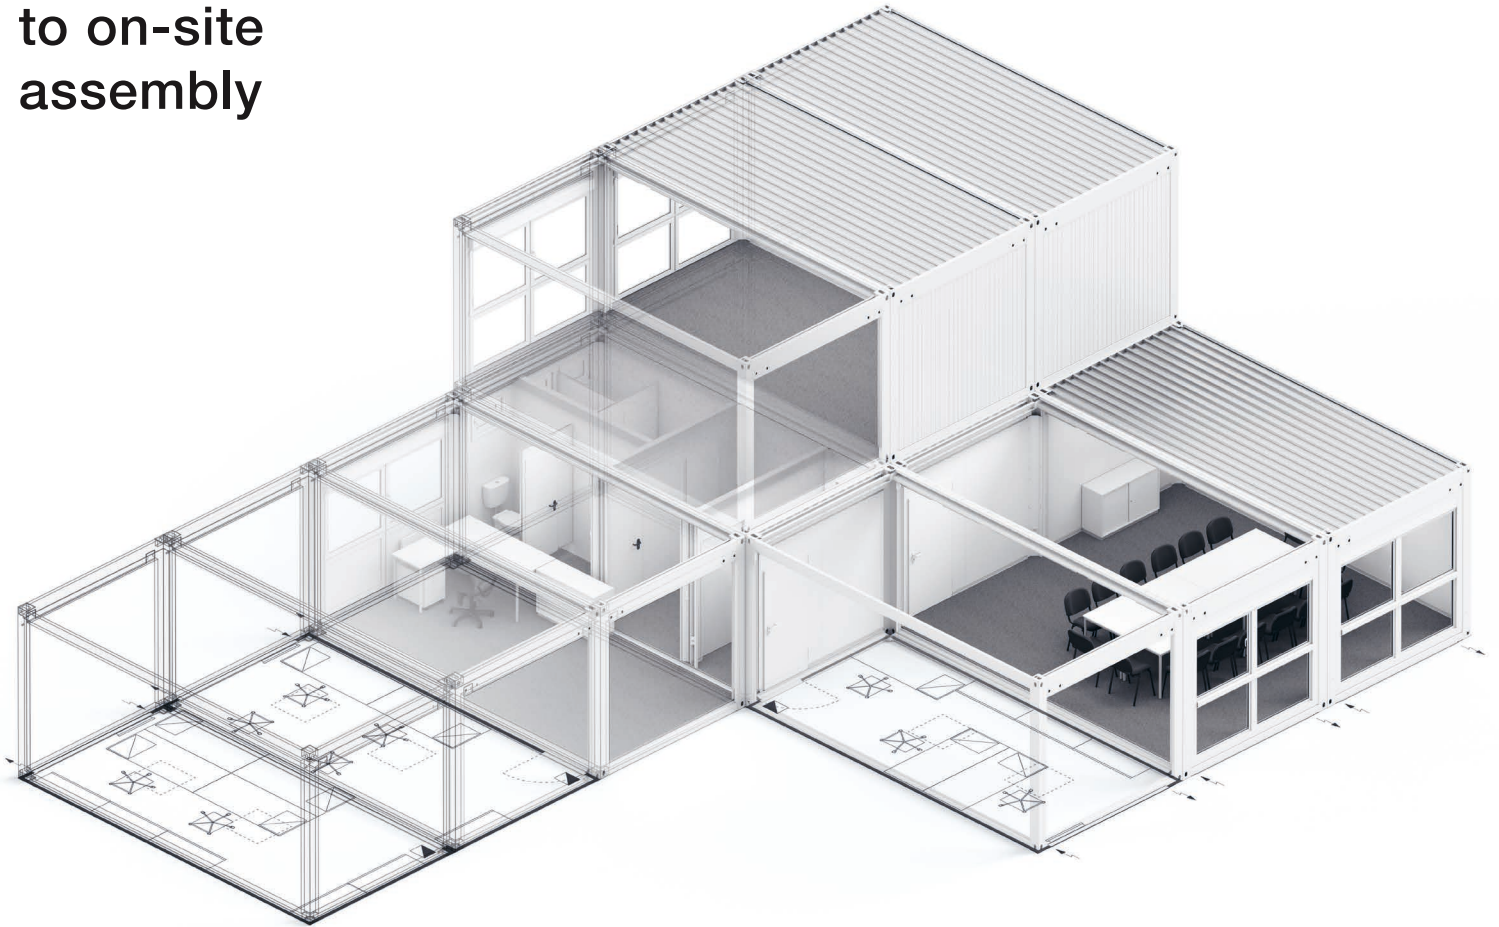

Financial sector

The container systems for rental and purchase that ELA has designed specially for banks and financial institutions create customer-friendly and modern counters, offices and meeting rooms. They meet the stringent security requirements of the financial sector.

Full service, from planning to on-site assembly

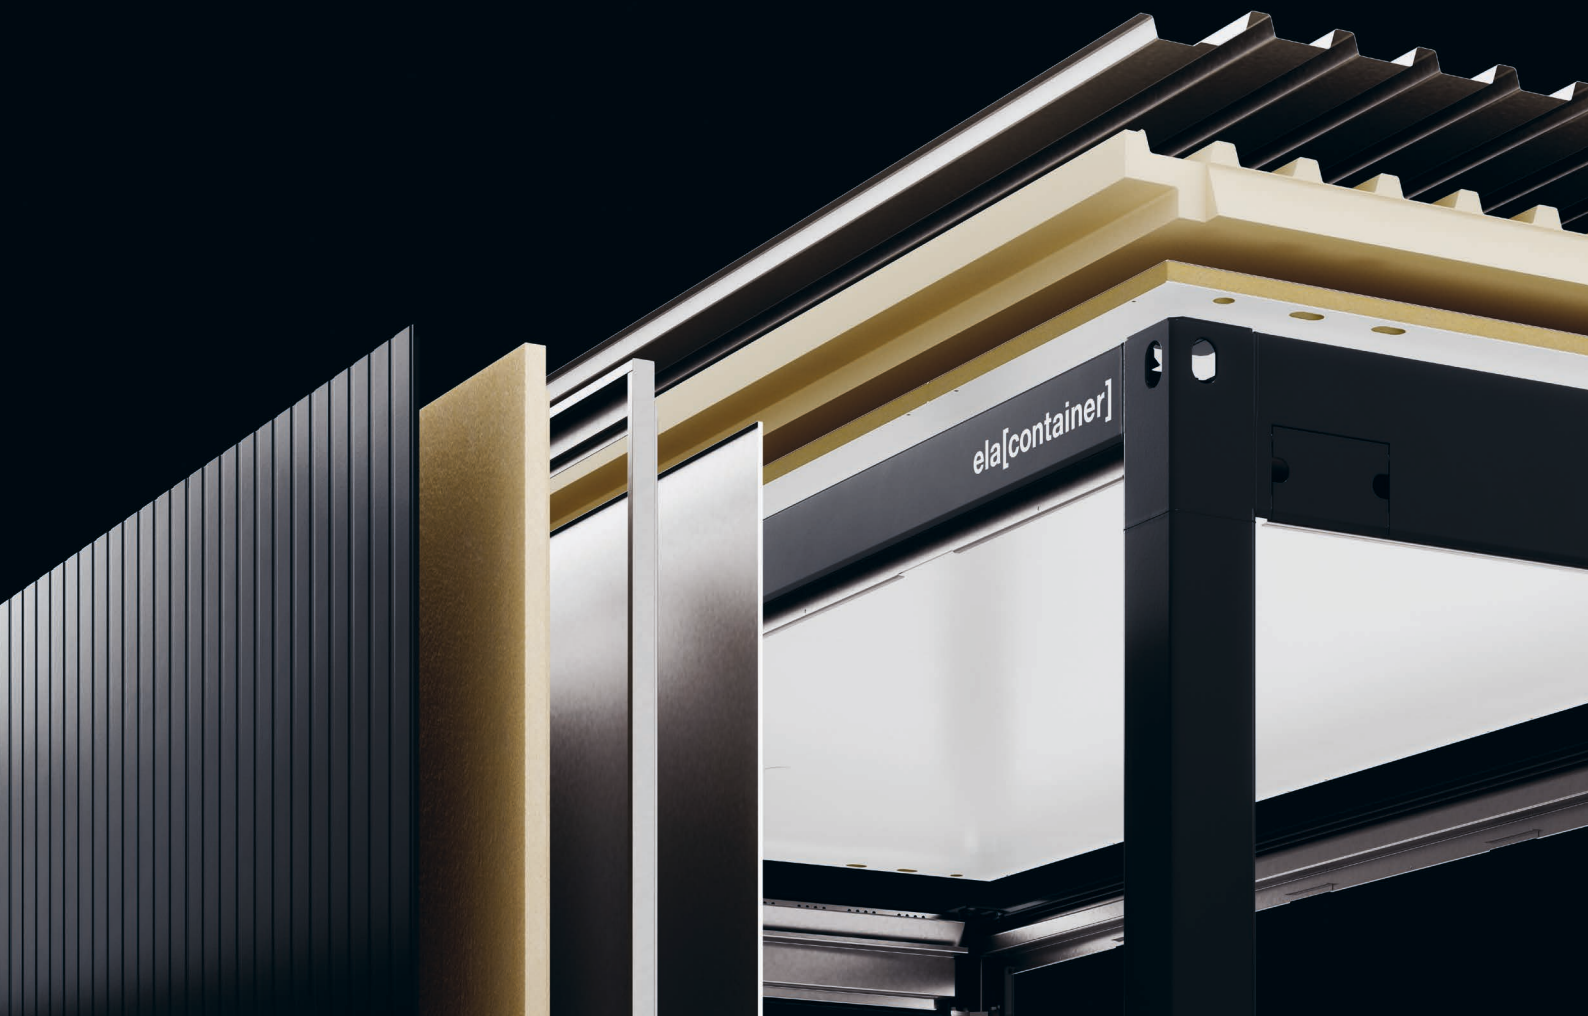

Whether over the telephone or on site, the consultants at ELA support customers from the outset and plan every customer request down to the smallest detail.

Containers are transported throughout Europe on over 100 company lorries – they even have their own loading cranes for assembly on site. The trained experts from ELA build the facility on site quickly and smoothly, ensure building site safety and prepare detailed safety plans.

High tech
craftsmanship
and expertise
'Made in Germany'

ELA is constantly developing its container technology and offers solutions for a wide variety of room sizes and requirements with an unparalleled diversity of products. German engineering expertise guarantees maximum quality and safety. All containers are manufactured to the strictest quality standards in the company's workshops in Germany – customers around the world can rely on the quality hallmark 'Made in Germany'.

ELA facts

Can be stacked up to four storeys high

Thanks to special structural engineering, the ELA modules can be arranged in stacks of up to four storeys. For our customers, this means more space in a smaller area.

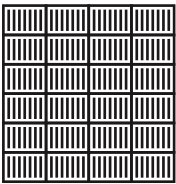

Worldwide availability

With its strong distribution network, ELA is represented practically worldwide. A team of more than 60 mobile ELA consultants also provide customer-focused planning and project support.

Mobile room solutions since 1972

ELA Container specialises in container-based rooms and buildings. The second-generation family company successfully combines tradition and consistency with innovativeness and vision.

60,000 leased containers

ELA has 60,000 container units permanently on hand at 18 locations. This means that we can guarantee the speedy availability of temporary room solutions in all sizes and at all times.

1,600 employees

The ELA team is growing: over 1,600 dedicated employees ensure seamless workflows and satisfied customers.

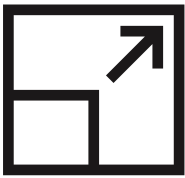

100 special trucks with loading cranes

With the aid of 100 special trucks with loading cranes, the mobile ELA containers can be transported to any location.

600,000 items for rent

With stairs, platforms, acoustic panels, whiteboards, furniture, telephones or Internet – ELA offers a comprehensive range of accessories for custom interior fittings.

Room solutions from XS to XXXL

Whether it's standard-sized individual containers or customised, oversize containers – ELA develops and builds containers and container facilities in all sizes and specifications.

18 locations

ELA Container is represented in the UK, Germany, Austria, Poland, the Netherlands, the Czech Republic, Denmark, Belgium and Lithuania.

Any application and industry

ELA containers are real all-rounders. They can be flexibly combined and individually equipped and are robust and durable, making them suitable for use in virtually all industries.
